Proprietors Silvana & Domenic Greco have intense gratitude to Dr. Moussa and all who supported him. Domenic underwent seven hours of surgery which was performed by Dr. Moussa to replace a heart valve and aorta. I am now attending physio-therapy twice weekly and am progressing well. Along the way, I have met many people who have experienced similar "miracles". It is time to give back!

As a restaurateur, I feel within an urge to "give back" so that other such "miracles" can be achieved. My spouse and I are hosting our first annual fundraiser for this worthy cause at our ristorante *Antica Osteria*.
